

UNILATERAL

Frames for two doors side by side

Unilateral frame allows two opposite doors to slide into the same pocket. It requires only a single frame's overall dimension, but it hosts two parallel doors going in opposite directions. It is ideal when you have two parallel doors and a short wall space like corridor and hall entrances.

Finished wall thickness 175mm

N.B. Non standard sizes on request

N.B.: Always specify door handings

AVAILABLE ACCESSORIES

- Soft Close
- Self Closing Mechanism
- Door Furniture

NOTES

- Suitable for use with 35-44mm thick doors
Max door weight 80kg (120kg on request)
- When fitting flush pull handles we recommend the stop be regulated so the door protrudes from the pocket to avoid risk to fingers.
- Should the door be set to enter the pocket completely we do not accept any liability
- Doors, plasterboard and final architrave are not supplied

Dimensions are given in mm
